--ABSTRACT--

In the English translation document, please insert the following paragraph at page 20 line 8 after the newly added ABSTRACT heading, as follows:

The invention relates to a method for data transmission, comprising the following steps: first data from a stochastic process is inputted into at least a first and a second subscriber of a communication network; and a symmetrical key is produced on the basis of the first data in both the first and the second subscriber, and stored in the same, for an encoded data transmission between said subscribers.
